

NAN PATTERSON

May Soon be Released by Court's Order

A FOURTH TRIAL OF ACTRESS

May Depend Upon Testimony Adduced at Smith's Hearing—Eight Jurors for Acquittal.

Albany, N. Y., May 5.—District Attorney Jerome who is here, said today that he will not decide as to whether or not he will re-try Nan Patterson until he returns to New York Monday. "It is impossible for me at this time," said the district attorney, "to outline my plans for the future so far as the Patterson case is concerned. Mr. Rand is tired out and has left the city for a few days rest. I have not been notified how the jury stood and will not know until I get back to New York. I expect to return to New York Monday morning and at that time will take up the matter and decide as to my future action."

New York, May 5.—Nan Patterson must remain in prison for some days at least, although it is the general opinion that the district attorney will decide to release her on bail. It looks now as if a consultation of the district attorney and his subordinates will be held Monday and that the future of the girl will then be decided.

Lawyer Abe Levy, counsel for Miss Patterson, appeared at the district attorney's office today but found no one there with authority to act in the girl's case. Levy thinks that only nominal bail will be required for Miss Patterson and that her release is only a question of a few days. He does not believe that the district attorney will further block Miss Patterson from freedom by requiring heavy bail. If he does Mr. Levy will appeal to the courts. Miss Patterson's lawyers believe the indictment against the girl will be quashed very soon after her release.

Dr. McGuire, the Tombs physician, says it will take several days before she fully recovers from the strain of the trial. Miss Patterson's father and two of her lawyers visited her today. They brought her the newspapers and chatted with her for some time, using words of consolation and imbuing her with renewed hope for her speedy release.

It is almost positively known now that the jury stood 8 to 4 for acquittal. A prominent jurymen, whose name of course cannot be given, says the jury so stood on the final ballot. He added, "No member of the jury believed Young shot himself. Every member of the jury did believe that Miss Patterson shot him through an accidental bluff. Murder in the first degree was never considered for an instant. Those who remained firm in their belief of the girl's guilt desired no severer punishment than manslaughter in the second degree."

SMITH INDICTMENT QUASHED.
New York, May 5.—Judge Foster in the court of general sessions, this morning quashed the indictment for conspiracy against J. Morgan Smith and his wife. The judge, in making his decision known took this occasion to score the grand jury that found the indictment and indirectly he hit at District Attorney Jerome for the methods used in handling this end of the case.

Judge Foster said there was no evidence in the minutes before the grand jury showing conspiracy on the part of the defendants. It was evident, he declared, that they were brought back as witnesses in an important case, and that the grand jury had not considered its duties or judicial position.

"They probably thought," said the judge, "that the end justified the means and had so acted."

New York, May 5.—Nan Patterson will soon be free. Within a few days, it is believed, the doors of the Tombs will swing outward for the young prisoner, and the Nan Patterson case will pass into history with the other unsolved mysteries that have puzzled the world for a spell and then been forgotten.

This is taken as indicating the trend of opinion with regard to the guilt of the accused. But before these figures were known, even before the jury had reported a disagreement, Assistant District Attorney Garvin, Rand's associate, said that if a disagreement resulted Nan Patterson would never be tried again. This is known also to represent District Attorney Jerome's view.

All day Levy sought Jerome and Rand for this purpose of conferring as to the final disposition of the case. Levy announced that he was prepared to furnish bail to the amount of \$50,000 for the prisoner, or if she is released on her own recognizance to guarantee her appearance whenever she is wanted.

None of the officials authorized to act appeared at the District Attorney's office, however. They were all resting after the nerve-racking events of the night before. Levy hopes to see them today and, as it is understood that no opposition will be offered to the prisoner's release, the beginning of the week may witness Nan's final departure from the Tombs, not freed of the charge for which she stands indicted, but chastened by an ordeal through which few women might be expected to pass and survive.

The end approaches in the famous mystery. Though two juries have failed to render a verdict signs are not wanting that a jury even more powerful than the 12 good men and true has rendered its verdict. In the street cars, on the public highways, in all places where the people gather, the general sentiment is thus expressed: "For whatever crimes she may have committed she has been punished enough."

For awhile yesterday there was grave danger that Nan Patterson would pass to higher tribunal for judgment. When that extraordinary scene was enacted in the Recorder's court, while the hands of the clock crept around toward dawn, Nan Patterson's life was at low ebb.

It was not until she had been carried back to the Tombs and laid in bed, and the prison physician had labored over her for half an hour that life was revived, and even then the tortured woman passed into delirium which did not end until the physician gave her a sleeping potion.

The one problem that arises in connection with the admission of the prisoner to bail is the standing of the J. Morgan Smiths. They are still under indictment for conspiracy and it was rumored that the District Attorney is about to ask a new indictment against them. He is believed to have in his possession evidence against J. Morgan Smith which would have been damaging to Nan Patterson if it could have been introduced at the last trial.

If J. Morgan Smith is tried and this evidence is brought out and it possesses the strength that it is said to hold, it was said that the District Attorney might then be forced to put Nan Patterson on trial again.

Therefore, while Nan may be admitted to bail, it was said that Mr. Jerome will not consent to dismissal of the indictment until after the J. Morgan Smiths have been disposed of.

Lying on her couch in the Hospital Ward Nan Patterson told of the ordeal through which she had just passed.

"It seems so unreal to me," said Nan, "that it is hard for me to think it is not a dream. My mind is a blank concerning what took place from the time I left the courtroom after the jury went out until I awoke in my cell."

"I do not even remember being awakened and dressed to be taken into the court room again to face the jury. Everything is a blank to me. I cannot believe that I really went across the Bridge of Sighs into the court room. Why, I do not even remember who was in the court room."

"Surely, the Recorder and my attorney were not there. I did not see them. I did not see anything. And yet they tell me I sat in the chair next to Mr. O'Reilly."

"This afternoon I read the stories of what took place in the court room before dawn this morning, and it was like reading something that I had never heard of before. I don't remember seeing the foreman of the jury stand up and tell the Recorder that the jury could not agree."

"Even now, after I have read the papers, I cannot bring my mind to understand that I was really in the place last night—that the Recorder was there—that the crowds were all about 'What does it all mean? Am I still to remain in the Tombs, or am I to be permitted to go home?"

"This is a great disappointment for me. I was so certain that I would be acquitted that I had tickets to Washington already purchased."

"I suppose, however, that I am not yet to use them. And what a disappointment it must be to my dear old mother."

"Papa and I have missed her, and we were fully assured that we should be home today. She sat up all night waiting for us to come. We received a telegram a short time ago telling us of her joyous expectations."

"But I have suffered so many disappointments since I have been in the Tombs that I suppose I should still suffer more. Do you know that I have been dressed and ready to leave the Tombs?"

"Yes, I have dressed myself 20 different times in the hope of getting bailed. But the bail bonds were all ways rejected by the Judge and I was compelled to return again to my cell. But I am still hopeful and expect to be able to furnish bail."

"A great many kind friends have offered to advance any amount of money to aid me in securing my release. But no matter how much I desire to get out of the Tombs and back home it will break my heart to leave to leave my sister midwife here. She has been the one comfort I have known during my deep anguish and pain."

"I really would rather remain here with her until her trial is finished. I know she and her husband will be acquitted and that we all three will go home together."

TRAINED APE ARRESTED IN SOUTH BEND, IND., FOR SMOKING A CIGARET.

South Bend, Ind., May 5.—During the performance of a trained animal show yesterday a constable served a warrant on the manager, because a trained ape smoked a cigaret during the performance. The trial will be held in a justice's court. This is the most rigid enforcement of Indiana's new anti-cigarett law yet reported.

JOHANN HOCH TRIAL

Sister of Dead Woman Occupied Witness Stand During Large Part of Day in Chicago.

Chicago, May 5.—In the case of Johann Hoch, the alleged Bluebeard, Mrs. Bertha Hoch, sister of Mrs. Marie Weicker-Hoch, the wife for whose alleged murder by poison Hoch is on trial, occupied the stand the greater part of the day. She told of various calls at the Hoch home in response to letters from Hoch which said that his wife was very sick and that he wanted Mrs. Hoch to attend to her. She testified that Hoch always prepared the medicine, which he said had been ordered by the doctor. The fact that Hoch personally attended to the preparation of the fluid which was injected into the sick woman was given emphasis by Assistant State's Attorney Olsen.

FATALITIES

BY LIGHTNING IN MICHIGAN AND DAMAGE IN MISSOURI.

Wind at St. Louis Blew 40 Miles an Hour Last Night—Heavy Rain and Some Hail.

Detroit, May 5.—The lower peninsula of Michigan was swept by a storm that caused several deaths by lightning and in the vicinity of Grand Rapids resulted in nearly \$100,000 damage to greenhouses and peach orchards from phenomenally heavy hail. Near Hillsdale, Willis Swift and his son Claude, 20, farmers, who had fled to their barn on the approach of the storm, were killed by lightning. Near Standish, Joseph Southworth was struck by lightning and killed while walking along the railway tracks.

At Sturgis, Charles A. Mather, 18, was killed. He was putting in electric light bulbs at the factory where he worked when lightning struck the wire.

Severe Thunderstorm.

St. Louis, May 5.—An unusually severe thunderstorm swept over St. Louis and vicinity, the wind blowing at the rate of 40 miles an hour. The rainfall recorded by the government weather bureau was 1.27 inches in an hour and a half. Hail accompanied the rain. At Webster Grove, a suburb, 15 miles west, the rainfall was in the nature of a waterspout, submerging streets, filling cellars and in some instances encroaching into the first floors of houses. The First Presbyterian church was struck by lightning and considerably damaged. Two houses were struck by lightning in St. Louis, causing slight damage.

JUNCTION

Of Squadrons To Be Made By the Russians, Which Japs Try To Prevent.

St. Petersburg, May 5.—According to a report in admiralty circles, Admiral Rodjstevsky has sailed south to effect a junction with the vessels of Admiral Nebogatoff's squadron which entered the China Sea today because the Russians have been informed that Admiral Togo had sent a number of swift cruisers for the purpose of disabling Nebogatoff's fleet before it could join Rodjstevsky's. According to the report the Japanese vessels were watching Sunda Strait, between the Islands of Sumatra and Java through which Nebogatoff intended to sail. The Russian commander discovered this and returned north and passed through the Strait of Malacca.

REVOLT AT SEVASTOPOL.

St. Petersburg, May 5.—Word has reached here of a serious military revolt at Sevastopol, where several hundred soldiers mutinied.

The soldiers became intoxicated and soon were beyond all control. They started a riot and perpetrated many outrages. When a force of troops was sent to quell them and restore order the mutineers offered armed resistance. A fierce street fight followed in which many were killed and wounded.

The Pastor's Union of San Jose, Cal., has applied for admission to the Federated Trades of that city.

CHICAGO STRIKE

State Troops Not Deemed Necessary

TO PRESERVE ORDER IN CITY

Matters More Quiet This Morning—Cost of Strike \$2,000,000 a Month.

Chicago, May 5.—Chicago will take care of herself. "The city will be allowed to show Governor Deneen that the aid of the state troops is not necessary for the suppression of disorders arising from the present teamsters strike. The chief executive of the state, after a three hours conference with representatives of Chicago employers Thursday evening said he would investigate matters for himself today or Saturday and in the meantime depend upon the assurances of Mayor Dunne and Sheriff Barrett that local officials are equal to the emergency. Mayor Dunne and Sheriff Barrett held a conference last night after learning of Governor Deneen's decision and decided to work in harmony for the best interests of the city. Mr. Barrett has given assurance that if he finds within reasonable time that he cannot control the disorderly element he will ask for state aid.

A committee representing the Federation of Labor of Chicago conferred with the Governor Thursday before the employers committee arrived and called upon the executive again after the business men had returned to the north. The labor leaders merely asked the governor to make a complete and impartial investigation before sending troops into Chicago.

It is estimated that the strike cost is at the rate of \$2,000,000 a month.

The police ordered the arrest of all spectators in a move to break up the crowds which collect at riots.

The number of wagons sent out with non-union teamsters increased and the guard is still maintained.

This afternoon a number of leading merchants and officers of the Employers' association will meet to discuss the matter of asking the sheriff to appeal to the governor for the presence of state troops.

The strike leaders are concentrating efforts in a large measure to attempt to shut down the operation of the Union Traction company's lines by preventing the delivery of fuel.

Gompers To Aid Settlement.

Washington, May 5.—President Gompers of the American Federation of Labor, is taking a poll by telegraph of the executive council of the federation on the proposition to attempt a settlement of the Chicago strike. He says he has no hesitancy in predicting that the executive council will help to bring about an adjustment by mutual agreement.

ENLISTED DEPUTIES

Sheriff Barrett in Control of Strike Situation—To Co-operate With the Police.

Chicago, May 5.—Notwithstanding the clamor of business men for state troops Sheriff Thomas Barrett of this county has determined to take the strike situation in hand himself, declaring that until he has done so he will not be justified in calling for militia. About 2000 deputies will be sworn in to assist in restoring and maintaining order.

Mayor Dunne for three hours through the downtown streets in a carriage, and on his return to the city hall declared that he had seen no violence and believed the police to be fully able to cope with the situation. The business men who are anxious for troops point as an argument to the long list of injured which is printed

every day, and declare that this alone is sufficient evidence to prove that the rioting is not suppressed. They declare that they are unable to make retail deliveries in any part of the city, and but for the fact that many of their men are accompanied by guards carrying rifles and shotguns they would be murdered in the streets.

The teamsters made an attempt to call out the employees of the Chicago Union Traction company. This corporation operates all the streetcar lines on the north and west sides of the city, and is in the charge of receivers

Harry Cable of Bellaire, and resulting in serious injuries to William Beaver and John Lundgren of Bellaire, and John Heinlen of Martin's Ferry.

Hurt at the Circus.
Zanesville, O., May 5.—John Jones, aged 14, fell under a Ringling circus train yesterday. His right arm and right leg were amputated by the doctors, but he died last night. Howard Jones, aged 12, fell off a box car while watching the circus unload and sustained a fractured skull. He will also die.

Hyde Declines to Accept the Alexander Resignation

WILL SEEK AN ACCOUNTING

Insurance Commissioners Informed That Investigation Will be Ended Next Month.

New York, May 5.—In a letter addressed to President Alexander of the Equitable, James H. Hyde and W. H. McIntyre refuse to accept Mr. Alexander's resignation as a trustee of the so-called Hyde stock, and announce that proceedings against Mr. Alexander will be taken in the courts for an accounting of his administration of the trust. Mr. Alexander, with Mr. Hyde and Mr. McIntyre, are the present trustees of the stock.

After a lengthy conference held in this city, the insurance commissioners from five states outside of New York announced that they had informally considered the situation in the Equitable society, had talked with State Insurance Superintendent Hendricks of New York, who has assured the commissioners that the investigation as to the management would be completed by June 15, and had decided to await the result of this investigation. Further than this official statement the commissioners would not discuss their meeting.

Gage E. Tarbell, second vice president of the Equitable, took occasion to give a positive denial to a report that he is to retire from the society and found a new insurance company with a capital of \$10,000,000. Mr. Tarbell said: "I don't know where such a report could have originated. There is not a word of truth in the story. The Equitable is good enough for me. I am not going to have anything to do with the formation of any other company. I have never thought of doing any such thing. I am not going to leave the Equitable. Anybody can ask me to resign, but nobody has asked me to resign, and nobody has asked Mr. Alexander to resign. Nobody has authority to ask me to resign or to force me out. My life is bound up in the Equitable. I have been here 25 years. These reports are the result of idle imagination, or the other thing, malicious mendacity."

ATHENS SHORTAGE

OFFICIALS BELIEVE BONDSMEN OF TREASURER LIABLE.

Refer to Supreme Court Ruling—Arrest of Deputy Auditor Scott at Athens.

Columbus, O., May 5.—At the attorney general's office it is said the arrest of Deputy Auditor Scott or any other arrest will not help out of their predicament the three treasurers of Athens county who are reported short by an aggregate of \$67,000. Rather it is the bondsmen of the treasurers who are in the chief predicament. The county will recover the loss if the bondsmen are good, and if it can be shown that the missing money was in the treasury. On the bonds of the three treasurers are the most prominent men of the county, including most if not all the bankers. The theory of the law is that a treasurer's bond is an insurance policy against loss of funds intrusted to him, no matter how the loss occurs.

The supreme court in the case of the State vs. Harper, Sixth Ohio Statute, holds the treasurer responsible under all circumstances. In this case the court said: "Felonious taking and carrying away public moneys in the custody of the county treasurer without any fault on his part does not discharge him or his sureties and can not be set up as a defense to an action on his official bond."

News Coming After Recent Report Has Made An Ugly Impression on the Public.

Washington, May 5.—The news of new fever cases on the isthmus of Panama, coming so soon after the recent favorable report of Governor Davis, has made a disagreeable impression for the reason that the new patients are a class of employes regarded as intelligent and competent to observe all the rules of hygiene and follow closely the well established method of protection against the fever. Recent reports from the isthmus, however, show that conditions are abnormally bad owing to almost a water famine and to bad weather. It is believed by the officials here that the conditions will improve steadily, and that the American colony is now going through its worst experience. Within a few weeks the new water supply system, bringing in pure mountain water to Panama, will be in operation, and when the city is paved with perforated brick and sewerage it will be the cleanest city in the tropics, with little danger of contagion.

Notwithstanding the constant fighting in the streets and the numerous attacks made upon nonunion men, the large dry goods houses and wholesale grocers reported that they were steadily making progress and increasing their shipments. There was less disturbance in the wholesale district, but the fighting went on with its usual persistence and viciousness in the heart of the fashionable shopping district. Several nonunion men were clubbed and beaten and their wagon guards and the police retaliated with vigor upon the rioters. In every instance the crowds were dispersed after brief scrimmages, which were, however, in several cases of rather a sharp character. The number of injured was from all accounts about the same as that of the last two days.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhoea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the penalty has to be paid by a dangerous operation.

When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

YOU KEEP CLEAN MAKES A STATEMENT

and you keep your Gas Range clean if you cover it with 6-5-4, because it is applied like paint and shines itself, so you need not soil your hands, nor waste your strength in polishing. It saves the expense of a stove polishing brush and it also saves much labor, because one coat lasts six weeks, and will not wash, rub, crack, chip or peel off.

STATE NEWS

Must Wear Caps and Gowns.
Delaware, O., May 5.—At a meeting of the Ohio Wesleyan faculty it was decided that the professors should all wear caps and gowns during the week of commencement this year. The special costume is adopted in honor of the inauguration of the new president, Dr. Herbert N. Welch, and is done at the petition of the senior class of the college.

New Oil Company.
Lima, O., May 5.—The Home Oil and Gas company has been organized here to test Logan county for oil and gas, prospecting never having been done there. Over 7,000 acres have been placed under lease and three wells will be drilled in rapid succession.

Has a Charmed Life.
Findlay, O., May 5.—The two-year-old child of Lynn Balsley, who was attacked by a rooster two days ago and severely spurred, yesterday fell from a three-story window and was scarcely injured, his left leg only being sprained in a slight manner.

Sepp Leaves Prison.
Mt. Vernon, O., May 5.—B. E. Sepp, former clerk of the city council, was discharged from the penitentiary in Columbus today, where he served a term for connection with the Marples in the land swindling operations. The sentence was for 13 months, but by his good conduct Sepp reduced the time considerably.

Former Congressman.
Zanesville, O., May 5.—Hon. Milton Isaiah Southard, 20 years ago a prominent lawyer in Ohio and in later years a leader in Tammany hall in New York, died at the home of his brother here of a complication of diseases, aged 68. Twenty years ago Mr. Southard represented the Fifteenth Ohio district in congress. Upon the completion of his congressional term he practiced law in New York with Hon. Thomas Ewing. He had acted as toastmaster of the Ohio colony banquets in New York, notably that given to the late President McKinley in 1900. He was regarded as one of the best orators in Tammany hall.

Hocking Valley Editors.
Columbus, O., May 5.—The Hocking Valley Editorial association held a short meeting at the Great Southern hotel and elected officers as follows: President, W. H. Bryan, Springfield; secretary-treasurer, J. W. Johnson, Waverly. The following delegates to the national convention, Guthrie, Okla., beginning June 6, were elected: C. E. Peeples, Pomeroy; Edward Wetzler, Lancaster; Ralph Harwood, Springfield, and J. L. Trauger, Columbus.

Pattison's Announcement.
Zanesville, O., May 5.—In a letter John M. Pattison of Cincinnati formally announces himself as a candidate for the Democratic nomination for governor of Ohio. Mr. Pattison states that he will accept the nomination if it is tendered him by the convention, but indicates that he will not make any unusual effort to secure delegates.

"L" Road in Cincinnati.
Cincinnati, O., May 5.—Henry Burkhold, representing a number of big capitalists, is promoting an elevated railroad, to run from the heart of the business district to Norwood. The city station of the road is to be at Fifth, between Race and Vine. Rights of way have been secured to without the city limits.

Trolley Victim.
Columbus, O., May 5.—As she passed from one track to another, Mrs. Anna Owen, 68, wife of George Owen, 545 East Long street, was struck by a westbound Long street car and fatally injured. She died at Grant hospital, where she had been rushed, an hour after the accident.

A device to prevent a horse's tongue from lolling out of his mouth is attracting the attention of horsemen. It consists of a bit to which has been added shields completely covering the animal's mouth at either side. These are further held in place by means of straps around the animal's nose. The inside of the shields are covered with tiny points, but they are sufficiently far away from the animal's flesh to afford him no discomfort until such time as he undertakes to thrust his tongue from his mouth, and then he is forcibly reminded of their presence.

They were purchased from one of the best herds in Ohio and go into a new section of the country, their destination being Saint Louis, Michigan. Mr. Sisson purchased these cattle in the interest of the American Devon Cattle Club of which he is secretary.

Utica Factory Growing.

When the next fire starts, the Utica Glass factory will employ 12 more workers than at present, 12 more glassblowers, 12 more snappers and a few additional men in the packing department and at other jobs—in all about 15 more men. Work has already been commenced on the additional packing house and oven.—Utica Herald.

Story Was Taken Literally.

The article in the Standard two weeks ago, in which it was jokingly stated that W. A. Ashbrook, of Johnston had "shipped" H. H. Sparks to Europe in order to get him out of the fight for representative, was swallowed whole by many voters throughout the county. While not in the same political garden with Mr. Ashbrook, it is not the Standard's purpose to do that gentleman a flagrant wrong and we

take this opportunity to state that the article in question was what we supposed everyone would understand it to be—a "jolly" Pataskala Standard.

Homer says that aside from business he is having a good time.

Yard Clerks Smoke Cigars.

Mr. and Mrs. L. J. Savey have returned to the city after a week's sojourn in the country with relatives on a short wedding trip. Mr. and Mrs. Savey were married a week ago Wednesday, as was stated at that time. Mr. Savey is a popular yard clerk and upon his return a box of cigars was tucked under his arm and the cigars generously pulled at by the yard employees were thrown aside for awhile.

Pole Stopped Runaway.

Considerable excitement was created on the northwest corner of the public square on Thursday by a team of runaway horses. The team of big gray horses owned by Samuel Inhoff, which were attached to an ice wagon, became frightened at something on the street, and started in run away. They ran across Third street and crashed against the big telephone pole that stands at the northwest corner of the park, and were brought to a standstill. No damage.

This fact is readily detected, as most of both kinds imported is used for mining purposes, and the American borax is preferred.

Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

Sympathy for the Sad.

It is but just and humane that the
people of the State of Ohio should
extend their heartfelt sympathy to Mr.
Walter D. Guilbert, State Auditor and
Commander in Chief of the vast stand-
ing army of inspectors of uniform ac-
counting who get away with \$15 or
\$20 a day in salary and expenses out
of the public taxes, as easily as a
duck does with a hat full of June bugs.

They had been stirring up a number
of Democratic officials whose accounts
showed a few dollars out of balance
through apparent errors, and Mr.
Guilbert kept all the papers supplied
with the news.

Finally they struck Athens county
where the Republicans have been in
power since the days of Noah. There
they found that whole generations of
treasurers had been milking the treas-
ury dry. There have been so many
thousands stolen that the inspectors
think that it may be necessary to
build an annex to the multiplication
table to enumerate the exact number.

In the meantime Mr. Guilbert can't
suppress all the facts and this makes
him sad. Shed a tear for him.

AT GRANVILLE

**Mrs. Elizabeth Charles Who Died at
Home of Daughter in Alexandria,
Was Buried Tuesday.**

Mrs. Elizabeth Charles, who died at
the home of her daughter, Mrs. Mary
Watkins, in Alexandria Saturday night,
was buried at Granville Tuesday. Rev.
Bunyan Spencer officiating.

Mrs. Elizabeth Davis Charles was
born in Wales, August 21, 1824. She
was one of eight children, three girls
and five boys, of Thomas and Mary
Davis, who came to this country years
ago and located on the farm north of
the village, where the children grew
to manhood and womanhood, all leav-
ing the old home to make homes of
their own. Elizabeth was married at
Newark, 55 years ago to David Charles.
To them were born three children,
Mary and Emma, who mourn today,
and Robert, who died at the age of ten
leaving a grief in the home that has
never healed. Mrs. Charles and her
husband moved from Newark to St. Al-
bans township 45 years ago and went
to live on the old homestead of her girl-
hood. From here the beloved husband
and father was called to his rest in Oc-
tober, 1875. Mrs. Charles continued to

occupy the same home until March of
the present year when she came to her
home in the village. In July, 1903, she
was stricken with paralysis. From that
time until her death she has been an
invalid. Since last October she has
tailed daily and has been tenderly
cared for by her two daughters, Mrs. E.
T. Rugg and Mrs. Maurice Watkins,
who tried by their love and devotion,
to smooth life's declining days. Satur-
day evening, April 29, 1903, at 10:30,
she passed quietly and peacefully into
rest in her 81st year. In girlhood she
united with the Baptist church and
continued in the same until death
claimed her. For the daughters who
are left, is the sorrow and grief, for
the mother, an entrance into the rest
which God has promised to those who
love him.

JAMES PORTER.

James Porter died at the advanced
age of 90 years at the home of his
daughter, Mrs. A. K. Cramer, near Con-
cord, recently.

Mr. Porter was born in Chester coun-
ty, Md., August 12, 1815. He was united
in marriage to Elizabeth Harvey, who
departed this life 38 years ago. To this
union there were born 8 children, six
of whom survive, being Mr. Cramer
of Johnstown, Mrs. Moore of Leesville,
O., Mrs. Wright of Newark, O., Wm.
Porter of Iowa, Chas. Porter of Cleve-
land, O. Funeral services were held
at Concord M. E. church conducted by
Rev. S. Fulton and burial made in Con-
cord cemetery.

FUNERAL OF JACOB REICHERT.

The funeral of the late Jacob Reich-
ert, one of Newark's best citizens, who
died Tuesday night, took place Friday
morning from St. Francis de Sales
church. Solemn requiem high mass
was celebrated by Rev. Father Crockett
of New York, in the absence of Rev.
B. M. O'Boylan, who is ill at home.
The reverend young pastor celebrated
his first funeral mass today. The
church was thronged with the neigh-
bors and friends of Jacob Reichert and
it was filled to its utmost capacity.
Many expressions of sympathy were
made for the widow and family. Inter-
ment was had in Mt. Calvary cemetery.

DEATH OF HENRY NEFF.

W. H. Neff, the railroad crossing
switchman, left Friday morning for
La Jose, Pa., to attend the funeral of
his father, Henry Neff, who died Thurs-
day from heart failure, aged 73 years.
Mr. Neff had just received a letter
stating that his father was well, but
somewhat feeble. Mrs. Neff was read-
ing the letter to the family when a
telegram message was received from
Coal Port, Pa., announcing the death
of the venerable parent. Mr. Neff left
on B. & O. No. 106 for La Jose. Mr.
Neff is survived by six sons and one
daughter.

DAVID BELASCO

**Believes Nan Patterson Innocent of
Murder and He Gives His Reasons.
Playwright at the Trial.**

David Belasco, the playwright sat
through the closing scenes of the Nan
Patterson trial and closely studied the
defendant, drawing the inference that
she was not guilty.

"How puny after all, is the art of dra-
ma setting!" said Mr. Belasco after-
ward. "Here is an old man, a chorus
girl, a dozen merchants in a box and
a couple of lawyers enacting a scene that
no artist could paint, no master stage,
no genius portray."

"There was never murder in the
heart of that woman; she is just a pa-
thetic cog in a great natural human
machine. She is a butterfly. The
gauge of her character is painted in
the curves about her lips, in her eyes,
in the lines of her form. She is a
man's woman; yielding, pleasure lov-
ing, romantic, voluptuous."

"But she is not a murderess. I
would stake my life that if she held
the revolver that killed Caesar Young
she was wielding it in the making of
a romantic bluff at self destruction or
endeavoring to prevent Young from
killing himself."

Squadron in English Waters.

London, May 5.—The identification
of the warships sighted by the steam-
er Zelaner in the Straits of Malacca
as Rear Admiral Nebogotoff's division
of Admiral Rojestvensky's squadron is
considered liable to develop an inter-
esting situation. Jugrah, off which the
division was seen, is a town of the
state of Selangor, which is a British
protectorate, and is not far distant
from the point where a Russian divi-
sion was sighted as long ago as
April 27. It is not yet known whether
the Russian warships are within terri-
torial waters or whether they are ob-
taining supplies from the neighboring
land. A brief telegram on the subject
from Singapore, however, is taken to
indicate that for a week the Russians
have been practically enjoying the
hospitality of the waters of Japan's
ally in the same manner that Admiral
Rojestvensky's ships have utilized
French waters in Cochin China.

IRA MUNCH DIES FROM HIS INJURY

**FORMER NEWARK MAN IN ACCI-
DENT AT ROUNDHOUSE,
COLUMBUS.**

**Underwood's Advice To Stone—Colum-
bus-Zanesville Accommodation—
Local Railway News.**

Ira Munch, a well-known machinist,
who was formerly employed in the B. &
O. roundhouse here, died Thursday
afternoon at the St. Francis hospital in
Columbus, from injuries received at
the roundhouse in the B. & O. yards,
Columbus.

Mr. Munch was about 25 years old,
and was transferred from this city to
Columbus about three months ago, and
was made foreman of the night repair
gang at that point.

The deceased was a cousin of time-
keeper, L. B. Munch, who is employed
at the master mechanics office here.
The latter went to Columbus and took
charge of the remains of the unfortun-
ate man, and the party will go to Foun-
tain, W. Va., where the parents of the
young man reside. A brother of the
deceased was seriously injured in the
local shop yard last fall when he fell
under an engine, having his foot torn
off.

Details of the Accident.

Columbus, O., May 5.—While in the
act of overhauling engine No. 1574 at
the B. & O. roundhouse, Fourth and
Maple streets, on Wednesday evening,
Ira Munch, single, and boarding at 223
North Fifth street, was caught be-
tween the engine and a platform and
his body was bruised from the hips
to the shoulders.

Hostler Andrew Davis had started
the engine, not noticing Munch in be-
tween the engine and platform. The
injured man was rushed to St. Francis
hospital in the patrol wagon, where it
was found that he was fatally injur-
ed internally. He died yesterday after-
noon.

Underwood's Advice To Stone.

An interesting story is told in cur-
rent issue of Saxby's Magazine of the
first meeting between 'Cal' E. Stone,
general passenger agent of the Great
Northern, and F. D. Underwood, presi-
dent of the Erie. When the meeting
took place Underwood was a freight
conductor and Stone was an operator
in a way station, and also checker of
freight.

"Hey, boy!" shouted Underwood to
Stone, "get a move on you. Say, what
do your folks call you when they are
not mad at you?"

Stone blushed to the eyes and an-
swered in a low tone: "Clarence Ed-
mund Stone, sir."

"Huh," snorted the freight conduc-
tor, "may I inquire if you intend to be
a Hamlet?"

Stone was interested in a second and
replied:

"No, sir; I do not want to be an ac-
tor. I want to be a general passenger
agent."

"Well," rejoined Underwood, "you
won't be anything in a railroad unless
you far loose a part of that name. Why
don't you call yourself Cal?"

The youngster made no reply, but
for 25 years he has been "Cal" and
nothing else to his wide circle of
friends and business acquaintances.

RAPID PROGRESS MADE BY B. & O. IN IMPROVING ROAD.

Rapid progress is being made in get-
ting the present rolling stock on the
B. & O. system in first class condition
by following out the present policy of
making substantial repairs and by dis-
posing of the obsolete equipment
which cannot be utilized to good advan-
tage for the present traffic require-
ments. With the continuance of this

IS YOUR CATARRH REMEDY CURING YOU

**If You Are Unconsciously Using
An Alcoholic Liquid Remedy
Stop At Once.**

People soon learn that the true test of a
catarrh remedy is whether it cures to stay.
Have you ever inquired why a liquid
catarrh remedy makes you feel better for a
time? It is because the alcohol in the liquid
remedy makes the mucous membranes drunk.

It deprives them of sensation, it inspires false
hopes and always leads to alcohol de-
pendency. A permanent cure by any liquid dyspepsia or
catarrh remedy is simply impossible. The
alcohol used in liquid preparations makes it
almost a travesty to call them remedies.
They invite the worst forms of catarrhs,
trouble rather than cure such troubles. Can
a physician be found who will truthfully say
that any liquid catarrh remedy is worthy of
use? Every physician knows that it is an
absurdity for anyone to claim that catarrh,
dyspepsia or any form of blood disease can be
cured by a so-called liquid catarrh cure. In
this connection it is wise to consider carefully
the best means for relief. Smith's Triple Cure,
that grand old remedy, consisting of four sepa-
rate preparations, three of which are in tablet
form, and used internally and another in the
form of a catarrh cream, contains no
alcohol and never leads to false hopes. It
makes you feel better the first day, and each
day following is but a repetition of the first
day's experience. It restores the mucous
membranes in every part of the body. It pos-
itively cures catarrh, dyspepsia and all blood
diseases. If you have long been a slave to a
liquid catarrh remedy, break away from the
habit. Use Smith's Triple Cure, and health,
abundant, full and complete, will be yours.
Four separate preparations, lasting a full two
weeks for 50 cents, the greatest value for the
money ever offered. If your druggist won't
supply you, send us 25 two-cent stamps by

method and the condition of the loco-
motives and cars, for which orders
have just been placed, the B. & O.
railroad will, within a few months, be
the best equipped railroad in the coun-
try for the handling of all classes of
traffic with the greatest dispatch and
safety.

The end of the calendar year will
have resulted in an addition of 11,250
new cars and 250 new locomotives of
the most modern design to the equip-
ment of the B. & O. railroad, and
which equipment combined with im-
proved track and transportation con-
ditions and facilities and the better
maintenance of the present rolling
stock, will insure an efficiency
second to no railroad in the country
for the handling of freight traffic.

The two hundred and fifty new re-
frigerator cars will be duplicates of a
similar number of cars that have just
been put into service. This equipment
is of the highest class for handling
of dressed meat, dairy products, provi-
sions, fruit and other perishable com-
modities. They are of unusual length
and capacity; arranged with ample
floor space and ice capacity and with
a refrigerating device, ventilation and
insulation features that will insure the
maintenance of the maximum tempera-
ture with the least consumption of ice.
These cars will also be equipped with
trucks, air brakes and signal and steam
heat connections, so that they can be
handled in trains running on regular
passenger train schedules.

The addition of 2,000 box cars of 80-
000 pounds capacity has also been in
keeping with the freight locomotives,
as they are designed for the rapid and
safe transportation of high class mer-
chandise. The commodities that have
been given the greatest consideration
in connection with the new equipment
are coal, ore and other similar prod-
ucts. Six thousand steel hopper and
gondola cars have been ordered es-
pecially for this business.

This equipment when added to the
present stock, will, with the attaining
of greater car mileage per day, due to
the facilitated movement, result in the
requirements of shippers and consum-
ers being more fully provided for in
the future than has been the case in
the past. These cars have all been ar-
ranged for the greatest convenience and
least expense and delay in connection
with the handling of coal, ore, etc., to
and from the cars, which will be an
item that will be greatly appreciated
by shippers and consumers.

For the handling of structural steel,
billets and other steel industry prod-
ucts, fifteen hundred cars of modern
design and capacity have been ordered
for assignment to this trade—these be-
ing duplicates of a similar number and
kind of cars that are now being con-
structed.

The 250 new ballast cars are for the
express purpose of handling crushed
rock and other similar material that is
now being used by the B. & O. railroad
in connection with its new construction
and maintenance of way track work, al-
so for the handling of slag, cinder,
ashes and other similar refuse mate-
rial as produced by the mills and man-
ufacturing concerns. These cars are
equipped with rapid loading and un-
loading devices and are representa-
tive of the most approved method for
the handling of materials of this kind.

Columbus-Zanesville Accommodation.

The B. & O.'s two historic accommo-
dation trains, which for 30 years have
been running between Columbus and
Zanesville, will be taken off May 21,
when the spring time card of the sys-
tem will go into effect. These two
trains are known as No. 113, arriving
in Columbus at 8:25 a. m., and No. 114
leaving Columbus at 6:10 p. m. It is
said that the intermediate line between
Columbus, Newark, Zanesville and in-
termediate points has become such a
strong competitor that the trains were
no longer a paying proposition. Nos.
113 and 114 will be greatly missed by
the smaller towns between Columbus
and Zanesville. It was announced by
the Baltimore and Ohio Thursday that
effective May 21 Sunday trains No. 49
and 50 running between Columbus and
Zanesville, will be known as Nos. 251
and 250. No. 251 will arrive in Colum-
bus at 10:15 a. m. and No. 250 will de-
part at 6 p. m.—Columbus Dispatch.

Eyes Not Injured.

Engineer F. W. Baseman, of this
city, was painfully burned about the
face and eyes, Wednesday night, when a
"dope" cup on his engine burst at
Washington C. H., allowing the oil to
spurt up in his face. It was thought
that Baseman's eyesight would be in-
jured but he is recovering nicely and
his eyes will not be affected.

Jurisdiction Extended.

A circular letter has been received
at the superintendent's office here, giv-
ing notice of the extending of the ju-
risdiction of E. T. White, superintend-
ent of motive power. His authority
now extends to the Pittsburgh system
and his office will be located at Pitts-
burg.

ARTHUR M'MULLIN BEGINS SUIT FOR DAMAGES AGAINST RAILROAD.

Business of the Day in Common Pleas—Pickups of Day in the Court House.

Arthur D. McMullin, by his attorneys, Hunter & Hunter, have commenced suit in the Common Pleas court against the Baltimore and Ohio railroad company for \$15,000 damages.

The plaintiff says that on the 8th of February, 1905, he was in the employ of the defendant as a brakeman on freight train No. 35; that the train and crew were under orders of the yard master; that it was the duty of the conductor to look after and care for the movement and safety of the train, and direct the men employed on the train.

Plaintiff says that as he was passing over the train for the purpose of seeing that the couplings were all right and properly coupled, he discovered an automatic coupler that was not completely and safely coupled, and that he was compelled to go between the cars to complete the coupling. He says that while working at the coupling the engineer negligently moved the cars backward and caught and crushed his arm. That the injury was so serious and great that it was necessary to amputate the arm. That he became sick and was disabled and confined to his bed and home, and was prevented from discharging his usual avocations, and was put to much expense for nursing and medical attention. He claims the injury was caused by the negligence of the defendant, and that he has been damaged in the sum of \$15,000, for which sum he prays judgment against the defendant.

In Common Pleas.

The court and jury are engaged in the trial of the case of Robert Bevelhimer v. The Columbus Railway Company. The action is brought for damages on account of an injury which plaintiff says occurred to him by being thrown from a car of the defendant company while he was alighting from the car. The petition was filed in Franklin county common pleas court, but was removed to this county for trial, a change of venue being asked. The plaintiff is represented by Crum, Johnson & Hedges of Columbus, Fulton & Fulton, of this city; Bootin, Keating & Peters, Kibler & Kibler and W. H. Jones of Columbus.

After the jury had been sworn an agreement was reached by the parties and the petition was dismissed.

Motion Filed.

In the case of Henry Hussman v. The Newark & Granville Street Railway company, the defendant has filed a motion to require the plaintiff to give security for costs for the reason that he is a non-resident of Licking county, Ohio.

Reply To Amended Answer.

In the case of John A. Roebbing Sons Co. v. The Sharon Valley Coal & Iron Co., et al, the plaintiff on behalf of itself and other answering creditors, has filed its reply to the second amended answer of Catherine Snyder. A. A. Stasel, attorney for plaintiff.

The case of Brothers against Brothers, action for divorce and alimony, the petition was dismissed.

STAR WITNESSES WERE ARRESTED

ANTI-SALOON LEAGUE DETECTIVE MADE DEFENDANT IN CASE.

Affiant Claims They Aided and Abetted in a Misdemeanor Bound Over To Court.

R. C. Vanhorn appeared before Squire J. R. Atcherly late Thursday afternoon and filed an affidavit against H. R. Garrett, Harry Frambes, and Attorney Boyd P. Doty of Columbus, charging them with aiding and abetting the committing of a misdemeanor.

The three defendants were star witnesses in the Hebron liquor cases which were tried before Mayor Crilly Thursday. In their testimony, two of them stated that they had purchased intoxicating liquors from a man named Osborn at Hebron. The men are in the employ of the Ohio Anti-Saloon league and it was for the purpose of getting evidence against the saloonists that they brought the liquor. The affiant claims that in purchasing the liquor, they aided in a misdemeanor. Squire Atcherly bound the men over to the probate court under bond in the sum of \$50 in each case.

John B. Gorton of Missouri signed a contract at St. Louis the other day with Japanese officials agreeing to deliver 100,000 horses for the Japanese army. The Northern Pacific railroad will transport them to Seattle and care for them there.

STATE MEETING COMES TO CLOSE

FEATURE OF LAST SESSION WAS AN ADDRESS DELIVERED BY REV. MR. FIELD.

Next Meeting of Baptist State Missionary Society Will be Held at Canton, Ohio.

Granville, O., May 5—The closing session of the seventeenth annual meeting of the Woman's Baptist Foreign Missionary Society which has been held here during the past two days, was held last night. There was a large attendance of the delegates and others, although a great many of the delegates had left for their respective homes. The principal features of the closing session was the address of Rev. T. G. Field.

Wednesday Evening.

Wednesday evening's program was opened by a devotional service, led by Mrs. Carey Chamberlin of Toledo. Then followed an organ voluntary by Miss Benedict and "Te Deum" by the choir under the leader, Miss Blinn.

Mrs. Stillwell, the first vice president, presided during the evening. Miss Peck of Cleveland and Miss Patterson of Chicago, the two young women under appointment to the foreign field, were introduced and spoke of their work.

After a solo by Mr. Harold Thomas of Denison university, the address of the evening was delivered by Mrs. Topping of Tokyo, Japan, who spoke in a most interesting and impressive way of their work there.

Thursday Morning.

The devotional service of the morning was led by Mrs. A. A. Cober of Dayton. The Baptist Women's Society of the West, to which the state secretary is tributary, maintains a home for missionaries' children at Morgan Park, Chicago. The interest of this institution was presented by Mrs. Stillwell. She was followed by Mrs. Scofield of Cleveland, Mrs. Dr. Scott of Seward, China and Mrs. Topping of Tokyo.

As the present home is overflowing and quite inadequate to the needs, the question came up of establishing another in Granville; others spoke also, the result of the discussion being a motion that the state society would sustain any action to this end, taken by those having the matter in charge.

The interest of the Ohio Baptist paper, "The Journal and Messenger," was presented by Mrs. Petus of Cincinnati. Then followed a symposium "Christian Work at Shepardson College," as told by some Shepardson girls.

Donna Russell of Sidney, spoke of the workings of the local Y. M. C. A. at the college. Eva Rockwood of Granville, of the Bible study department of the work, and Clarice Carroll of Alexandria of the work of their missionary committee, were among those setting forth vividly the earnest and faithful work that is being carried on among the Shepardson girls.

Mr. J. A. Cherney of Cleveland a student of Denison university spoke of "The Juniors" of the Granville church of which department he is leader.

Afternoon Session.

After devotional exercises led by Mrs. I. Warren Smith of Columbus, and a solo by Miss Blinn, the paper on "Our Juniors" crowded out in the morning, was given by Miss Ford of Zanesville.

An interesting discussion of the Junior work followed. The state society always has a tent at Hawatha park during the assembly as headquarters for the dissemination of mission literature. The subject of the support of this tent was presented by Mrs. Crippen of Lima.

An obituary notice of Mrs. Mary Hughes Shepard of Granville, who died in 1904, was read by Mrs. Baldwin.

The address of the afternoon was delivered by Mrs. Anna K. Scott M. D. on Medical Work in China, a subject of ways interesting, and as treated by Mrs. Scott, extremely so.

After the address there was a division of interest. Mrs. Topping had a children's meeting in the church with a large attendance of children of the public school, the children being gathered by Mrs. Marshall by Mr. J. A. Cherney of Denison university.

At the same time a number of women were taken up the hill for a visit to the university, while the Columbus association held a short business meeting in the Methodist church.

At 4:30 on Thursday the body adjourned to Recital Hall, where they listened to a delightful musical program given by the pupils of the Conservatory and the Glee and Mandolin clubs. After the concert a reception was tendered to them by the Shepardson faculty in King hall, where a most pleasant hour was spent in social intercourse with each other and with the college girls.

At 7:30 a large assembly gathered at the Baptist church to listen to the address of Rev. T. G. Field on "The Situation of the Congo."

The committee on time and place of holding the next meeting reported in favor of holding the meeting next year at Canton immediately following the meeting of the Women's Foreign Missionary Society of the West.

MINING INTERESTS

Of Certain Newark People Explained By Detailed Letter Received From Doctor Robb.

The following letter was received by Mr. F. L. Woodbridge from Dr. I. H. Robb, who is in Chesaw, Washington, looking after the extensive mining interests in which a number of our Newark people are interested:

Chesaw, Wash., April 29th.

Mr. F. L. Woodbridge.

Dear Fred:—I received your letter and wire all O. K. and will start for Loomis tomorrow to look after our interests there and if they are doing half as well as our interests here I will be more than satisfied. I was up to the Gladstone yesterday, and I tell you she is a peach. They are taking out some of the finest looking ore you ever saw, it is a silver glance and runs high in gold values. Quite a number of B. C. mining men have visited it and all unite in saying it has the finest showing of anything they have seen for the amount of work done on it. I sold one Spokane mining man \$2,000 worth of stock and will sell a great deal more to the people out here. The ore is a beautiful blue color and there seems to be no end to the width of the vein through which they are working now. Fred, if we had no other property out here except the Gladstone, we would not need worry over money matters as long as we live. Emanuel Kroner's family and J. H. Baker from Newark are here and all seem to like the country very much. The G. N. R. R. people are working on the railroad just east of Oreville and it seems a sure thing that they are to have the railroad through this summer. If they use the present line of survey the road will run over one corner of the Ben Harrison mine.

W. C. Peay is rushing the building of the Ben Harrison mill and expects to be grinding ore in June. Mr. Frazer, the architect in charge, assures me that the mill will be A1 in every respect. The G. N. R. R. Co. are going to build a \$100,000 smelter in Midway this summer. With a smelter of that capacity near us and a railroad running over our property we can work our mines at an immense profit. Kroner is installing some of the latest hydraulic placer machinery on our places and expects to have them turning out the yellow dust in a short time. This is going to be a great year for Chesaw, and those who got their feet in on the ground floor of this camp can consider themselves lucky.

SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poisonous condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming of Spring and Summer, when the blood is reacting and making extra efforts to expel all morbid and poisonous matter, they make their appearance. External remedies cannot cure; they soothe and give temporary relief, but often clog the pores and glands, and the poison causing the trouble is thus shut up in the system to break out afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin diseases by going down into the circulation, driving out all poisons and waste matters, strengthening the blood, leaving the skin soft and smooth, and building up the entire system by its tonic effect. S. S. S. cures Nettle Rash, Poison Oak and all skin diseases that enter the system through the pores and glands, as well as those that have their origin in the blood. THE SWIFT SPECIFIC CO., ATLANTA, GA.

TIMELY HITTING BY MT. VERNON

WINS OPENING GAME FROM IDLEWILDE TEAM BY A SCORE OF 5 TO 4.

MacKown is Star Fielder For Idlewilde and Work of Entire Infield Was Marvelous.

Won 1; Lost 4; Percent .200.

(By Charles E. Ayers.)

Mt. Vernon, May 5.—Had Newark fans seen the fast work done by the Idlewilde infielders in the opening game here they would have gone wild. MacKown was practically the whole thing and his sensational work was appreciated. However, Idlewilde showed a lamentable weakness before Lillis, connecting for but five hits, none of which was for an extra base.

On the other hand Mt. Vernon took kindly to "Lefty" Snyder and batted him all over the park. But for the sharp support he was given in two or three instances the Mt. Vernon score would have soared high. Goodrich's men, while they shone at bat, were badly off on fielding and headwork. Had their hands and top-pieces been laboring full time Idlewilde would have been shut out, as "Snows" scores all resulted from errors of commission or omission.

Two of the Idlewilde scores were directly traceable to slow thinking on the part of Mt. Vernon players. In the third after Snodgrass had flied to Humphreys, Alcock struck out. Miller erred by dropping the ball and then drawing ligger from the sack by a poor throw, allowing the runner to land safely. Snyder put the ball into left, advancing Alcock with the bingle. Wratton got in the way of the sphere and filled the pillows with but one man out. MacKown dumped one to Lillis, who did the same dance and then threw Mac out at first. Had he used his noodle he would have caught Alcock at the plate and still had time to double the runner at the initial sack. Linderbeck ended the agony by putting one in Strong's hands.

Again in the ninth heads failed to work. Hollander hit to right and was caught at second or fielder's choice, when Snodgrass put the ball to Lillis. An error by Reynolds let Alcock camp with ligger. Snyder hit to Healey, who threw "Lefty" out at second. Humphreys covering the sack. Hamp held the ball and looked at his feet, while Snodgrass made tracks on in across the plate. Wratton was easy by the way of Reynolds to ligger—and the band played on that old familiar tune on page 9, Red Book, "Mt. Vernon is Idlewilde."

Idlewilde's other pair of runs came in the eighth, Wratton getting down on Reynolds's wild throw to ligger and stealing second. MacKown hit three times where there was no leather or seams. Linderbeck got soaked in the ribs and paced. The two advanced while ligger was caring for Walton's stinger down the first base line. O'Brien chased the two men in line a single through second. He was caught trying to make station No. 2, thinking that the ball would be fielded to the plate, Healey and Lillis taking care of him.

All of Mt. Vernon's runs were earned, Riley's triple and "fouple" doing a quartet stunt in the scoring department. The fifth run was gained on a single, a sacrifice and another clean rap out between Walton and Linderbeck.

EATIN' 'EM UP.

Snyder never won a game against Mt. Vernon on the local grounds.

The only double play in the game was like lightning. It was in the eighth when McKown snapped up Strong's grasser, stepped on second, putting Healey out, then whipped the horsehide over to O'Brien. He worked fast—he had to do so.

Riley was the only Mt. Vernon batsman to strike out. Funny, too, that he got the extra base hits.

Riley's hit was a low liner clearing the left field fence.

Wratton's work was gilt-edged. He

exhibited a fine arm in whipping the ball over to first.

HERE NEXT WEEK.

The Idlewilde will meet the famous Blue Lick baseball team of Cincinnati, in this city, next Monday, Tuesday and Wednesday. The Cincinnati bunch have a reputation of playing fast ball and a good game will, no doubt, be played.

WANTS BERTH AT ZANESVILLE.

Ted Purcell, a former Lancaster twirler, is negotiating with the Moguls for a berth there, but his terms are rather high. He recently played with the Wheeling team of the Central league, but jumped that team.

GRANVILLE LOSES IN 10 INNINGS.

Zanesville, O., May 5.—The local high school defeated the Granville high school in a 10-inning game here yesterday afternoon. The score was 3 to 2, and the chief features of the game was the pitching of Hastings for Zanesville. Thirteen men were struck out and only four hits allowed. Cox, for Granville, struck out nine men and allowed eight hits. Zanesville will play Granville here, May 20. Newark and Zanesville will cross bats one week from Saturday.

CAPTAIN ROGERS

Will Coach Newark High School For Coming School Track Meet at Idlewilde.

Captain Rogers of the Denison track team, has been secured to coach the high school team in their preparations for the big track meet in June. This will prove to be of great benefit to the high school lads and a team of winners should be turned out under his direction.

Candidates for the various track teams in the nearby high schools will be admitted at the Wesleyan-Denison track meet tomorrow. Coach Stanton is looking toward a greater interest, being aroused in high school athletics and takes this method of increasing the interest.

NEWARK SHOOTERS

Win a Bunch of Money at Big Shoot at Pittsburgh—Fine Gun Won By Fisher.

Messrs. Orr and Fisher, of the Newark Gun club, have just returned from Pittsburgh, where they participated in a big interstate shoot. Marksmen were present from all over the state of Pennsylvania and Eastern Ohio, and many valuable prizes were offered. In the contest, Fisher won some \$40 in money and a fine gun, valued at \$50. Orr, also attached himself to a bunch of greenbacks, and both marksmen made good records. Over four hundred shooters were entered in the contest.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

Russian Wrestler Wins.

New York, May 5.—George Hackenschmidt, known as the "Russian Lion," won from Tom Jenkins of Cleveland in their wrestling match for the world's catch-as-catch-can championship at Madison Square Garden in two straight falls. A crowd seldom equalled at a sporting event in this city since the time of prize ring bouts witnessed the match. In the first bout the Russian took the aggressive from the start and threw Jenkins with a half-Nelson after 31 minutes 15 seconds of hard wrestling. The second and last bout was somewhat shorter, for Jenkins had weakened, and Hackenschmidt won in 22 minutes 4 seconds with a half-Nelson and body hold. The match was for the best two out of three falls, and both men had been in training for weeks. Jenkins is the champion catch-as-catch-can wrestler of America and Hackenschmidt is known as the "unbeaten Graeco-Roman champion."

Opening of Belmont Park.

New York, May 5.—One of the greatest crowds that ever gathered to see a thoroughbred race in America was at Belmont park to witness the sensational running of the Metropolitan handicap, in which James P. Keene's three-year-old, Sysonby, and O. L. Richards' hardy four-year-old, Race King, finished so close together the judges were unable to separate them. Both owners announced their satisfaction with the result as it stood and the purse, amounting to more than \$14,000, was divided. The time of the race was disappointing, showing that the Belmont tracks are still "new" and slow. The novelty of seeing races run the "wrong" way of the track, or finishing from the right, was by no means an uninteresting feature of the sport.

Race Horses Cremated.

St. Louis, May 5.—Fire, which was discovered shortly before midnight, destroyed 25 stables at the St. Louis fair race track and resulted in the death of 12 or more horses. The principal loser is Frank Gering of St. Louis, whose entire string with the exception of Floral Wreath was destroyed. Other owners who lost one or more horses each are Mrs. Lindsay, Joseph Kern and T. H. Gebhardt of St. Louis and Tom A. Gay of Texas.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

"ROSE MAIDEN"

Cantata Was Enjoyed at Auditorium Thursday Night—"Creation" Will Be Given Later.

Although not greeted by a large audience, the Rose Maiden, at the Auditorium Thursday evening, was a success, and reflects much credit upon the directors. The chorus numbers were especially fine, showing the strict and successful training under Professor Judson.

Of the soloists, the work of Mrs. Maude Wentz McDonald deserves special mention. She has a rich contralto voice of remarkable range and power, and her tones are of the deep, full quality which, coupled with her grace and ease of manner, makes her indeed a pleasing performer.

Mrs. Edith Sage McDonald made her second appearance in Newark, and was greeted with hearty applause after each of her numbers. Her voice is remarkably clear and sweet and she has perfect control of it. She does not sing with dramatic force, but her tones are of that clear, sweet quality which makes them attractive.

Mr. Beck, tenor, of Columbus, received much praise and his ability was well in evidence, and pleasing. Walter Bentley Ball needs no introduction to Newark people, as his work is always of the same high standard, although he has been heard here in parts better suited to his quality of voice.

The orchestra was under almost perfect control by Professor Judson, and taken as a whole the work was a decided success.

After the performance, Professor Judson was presented with a most beautiful bouquet of carnations by the chorus.

Another rehearsal of the Newark chorus is called for next Tuesday, at which time work will be given upon Haydn's "Creation," which will be given later.

CASHIER SPEAR

Can Not Be Given Clerical Work at the Prison Now as All the Soft Jobs Are Taken.

Cleveland, O., May 5.—A. B. Spear, late cashier of the "Chadwick" Oberlin bank, was received at the penitentiary yesterday to enter upon his seven years' imprisonment. He brought with him a letter from District Attorney John J. Sullivan, who prosecuted him, in which that officer requested Warden Gould to give the prisoner clerical work. Spear took his imprisonment with rare good humor. He laughed and joked with the officials. He conducted himself in the same "airy" manner in Oberlin during the time that his conduct in the Citizens' Bank was under investigation.

Because there are now 10 bankers in the penitentiary, all of whom have been assigned to clerical work it is not likely that Spear will be given an easy task at once.

Spear was permitted to retain his watch. When \$60 in currency was taken from his clothes he asked for a receipt. He proposes to be a model prisoner.

Ed. Doe Locked Up.

On Thursday evening Ed Doe, owner of the jewelry store next door to Carroll's dry goods store on Third street, Newark, O., locked up some three thousand dollars worth of diamonds, samples of jewelry in his mammoth safe. BATTERY D.

Will Go to Vicksburg, Ordered to Accompany First Regiment to the Monument Dedication.

Adjutant General Critchfield issued general orders Thursday for the movement of the First Regiment to Vicksburg, to take part in the dedication of the Ohio monuments on May 22. The first paragraph of the orders makes the Cincinnati Battery D, a company of infantry for the purpose of accompanying the regiment on this trip, and the captain is ordered to report to Colonel Hake for duty.

A company of the First Regiment was recently mustered out at Sabana, and this move makes the regiment one with a full complement of companies again for the occasion. When the regiment returns, of course, the battery will be detached and restored to its position as an artillery organization.

Paragraph three provides that the expenses of the regiment on this trip, and the camp, shall be paid from the state treasury, provided that the sum to be paid for transportation shall not exceed the cost of transporting it from Cincinnati to the state camp grounds at Newark by the shortest route.

Report Pneumonia Studies.

New York, May 4.—Volunteers reported from workers in colleges, hospitals and hospital all over the country have been presented at the first general session here of the pneumonia commission appointed by the New York Board of Health.

Although considerable progress has been made in studying the causes of the disease, methods of treatment and means of prevention it has not been sufficient to warrant the publication of definite results. The bacteriological experiments have been, it was stated, the most interesting. The existence of the pneumonia germ in normal mouths as well as in those of per-

IN THE GAS FIELD

R. H. Behout Asks to Have Man Appointed to Gauge All of His Gas Wells.

(Utica Herald.)
 Lupter Behout, rugged up at the Court house of the Buckeye State, at the northeast edge of Utica, Tuesday.

Casings were completed in the Utica company's new Alden well Tuesday, and the drill is now down about 700 feet.

The crew from the Harrison Bell well has gone to the Reynolds well. The proposed Stanton well will be drilled until the Enterprise test south of the Bell well is drilled in.

The Butler Oil and Gas company was incorporated in Columbus, Friday by F. O. Leverenz, Hugh Neal Judson Vincent, Isaac He - and C. W. McKee. The capital stock is \$25,000. This is the company now drilling a test well near Butler.

R. H. Behout has made application in the Knox county probate court, asking that a gauger be appointed to gauge all his gas wells. The statement was made in the application that an agreement was made between Mr. Behout and the gas company whereby the probate court should appoint the gauger should any controversy arise.

Five members of the council of Norwood, a suburb of Cincinnati, were shown the gas field last Friday at the Ohio Fuel Supply which is applying for a franchise in Norwood. The party went out from Mr. Vernon in automobile. Edward Kinsey was asked to take his machine up from Utica for the trip, but he was unable to go.

Hamilton Ministers Suggest Solution and Will Appeal to the Next Ohio Legislature.

Hamilton, O., May 5.—The Hamilton Evangelical Alliance, including practically all of the clergy in the city, has decided to appeal to the next Ohio legislature for legislation for the correction of the divorce evil in this state. Extensive resolutions were adopted unanimously, providing, among things: For the presentation of a petition to the next legislature for a revision of the Ohio divorce laws in accordance with the sentiment of the public and with the advanced action taken in other states; for a law providing that publicity be given to all applications for marriage licenses, for the protection of ministers and others authorized to perform marriages, and to prevent the marriage of persons lacking the moral right to marry; for an investigation by all ministers of the city of the character and history of all persons applying to be married; for the strict adherence

to the rules of the various churches as to the marriage of divorced persons and for the preservation of the ethical safeguards provided in such cases.

BOYS

Under Arrest for Trying to Wreck a Limited Train on the Lake Shore Railroad.

Toledo, O., May 5.—Detectives of the Lake Shore railroad discovered a second attempt to wreck the Lake Shore Limited, No. 22, and placed under arrest four boys, who are charged with having committed the deed.

The first attempt was made last Saturday, when the same train struck a keg with nails, which had been placed in the center of the east bound track. The engine struck the keg in such a manner as to throw it off the tracks. Since that time tracks have been watched closely, and Detective, Mitchell and Roberts were riding out the track, when their car suddenly struck a brace of ties arranged "V" shape. They had hardly struck the ties until they heard some boys and by quick action captured four of them.

They are John, George and Joe Galski, aged 19, 15 and 13 respectively, and Mike Sobojaka, aged 13.

SLAVE

To the Cigarette Habit, Woman Begs to be Sent to the Workhouse for Treatment.

St. Paul, Minn., May 5.—Victim of the cigaret habit for years, and so weakened by the effects of nicotine that she could scarcely walk, Evelyn Roberts asked the police to send her to the workhouse for treatment. She has been suffering untold agonies for several days without the poisonous solace of "ciffin balls," but now feels hopeful that she can conquer the habit. When seen at the workhouse the woman said the cigaret habit was worse than any other. It was easily acquired, cigars being easy to obtain, and it was impossible to leave them alone. She began to smoke because she saw others do it, and in a few months was a slave to nicotine. She increased her daily supply rapidly and two weeks ago had to take to her bed under treatment. She has been improving rapidly the medicine having brought the nicotine out through her skin.
